Mission Statement

“The Mission of the Department of Financial Institutions is to serve the public through effective and efficient regulation that promotes consumer confidence and economic development.”

Department of Financial Institutions Philosophy

The Agency’s philosophy, drawn from its core values, its vision, and its mission, represents the fundamental beliefs that shape the approach to policy and operations and our commitment to those we regulate and the citizens of Kentucky.

- **Commitment to High Standards.** The Agency is committed to raising the standards of financial services regulation by providing professional, courteous, accurate and knowledgeable service to those we regulate.
- **Commitment to Employees.** The Agency recognizes that its employees are its greatest asset and they should be encouraged and empowered to use their creativity and working not only individually but as a team to fully satisfy the needs of the financial services industry. Only through teamwork, training and education can our staff ensure adequate response and delivery of unequaled service. We must continue to provide lifelong educational opportunities and the most up-to-date equipment to our employees.
- **Commitment to Flexibility and Service.** Flexibility is essential in today’s rapidly changing world. Those we regulate expect greater efficiency and responsiveness from government. Government expectations of its employees is at a higher level than ever before. We must stand ready to make every effort to keep abreast of emerging trends and be able to make changes within our Agency that result from mapping trends and industry expectations.
- **Commitment to Assisting Taxpayers.** This Agency will improve its efforts to educate and inform citizens.
- **Commitment to Responsiveness.** This Agency will continue its efforts to be of service to the citizens. We will, in individual cases, act as an ombudsman to resolve complaints against entities we regulate. We will continue our educational outreach to our citizens in order to ensure their knowledge of their rights and responsibilities.

Commitment to Fair and Impartial Administration and Enforcement. This Agency is committed to administering the laws of the Commonwealth fairly, equitably and impartially without regard to status, wealth, political affiliation, race, color, creed, or disability.

ELLA D. ROBINSON
COMMISSIONER

PAUL E. PATTON
GOVERNOR

June 30, 2003

The Honorable Paul E. Patton, Governor
Office of the Governor
The State Capitol
Frankfort, Kentucky 40601

Dear Governor Patton:

I am pleased to submit to you the Annual Report of the Kentucky Department of Financial Institutions for the year ending December 31, 2002. This report contains statistical and historical information pertaining to the financial services industry regulated by our agency.

As we continue to see rapid changes in technology, we persist in our endeavor to keep pace with these changes. We are currently in the process of building an integrated database which will greatly enhance our ability to serve the public.

As proud as I am of the high level of service our staff provides, we constantly seek new avenues to enhance our level of commitment to the Commonwealth and those we serve. Our mission and our strategic plan ensure that we will continue to work diligently to enhance the regulatory duties to meet the challenges of the financial services industry.

Sincerely,

A handwritten signature in cursive script that reads "Ella D. Robinson".

Ella D. Robinson,
Commissioner

FORMATION OF REGULATORY AGENCY

Department of Financial Institutions

The Department of Financial Institutions was established by the Banking Act of 1912 as the Department of Banking. It was charged “with the enforcement of all laws heretofore passed, or which may be passed, relating to banks, trust companies, savings banks, combined bank and trust companies, organized and doing business under the laws of the Commonwealth of Kentucky.” (Chapter 4, Section 1, Acts of the General Assembly of 1912.)

Within a few years, however, other regulatory responsibilities were added as the state’s economy and its financial services needs evolved.

The legislature mandated supervision of state-chartered savings [*building*] and loan associations to the department in 1918 and added state-chartered credit unions in 1922. When oversight of the state’s securities industry was given to the department in mid-1932, the agency was renamed the *Department of Banking and Securities*.

Consumer and industrial loan companies were added to the list of agency-regulated industries in 1946. With passage of the Sale of Checks Act of 1966, the legislature also required companies that sell money orders to become licensed through the department.

The department’s scope was further expanded to include mortgage loan companies and mortgage loan brokers in 1980.

The department experienced a number of changes as a result of the 1984 General Assembly, which re-codified the Credit Union Act, overhauled the state’s banking laws, changed the agency’s name to the *Department of Financial Institutions* and established the *Financial Institutions Board*.

The Board is an advisory body comprised of 11 representatives from the respective financial services industries and the general public along with the Commissioner who serves as its chair.

Through the Check Cashing Services Act of 1992, the legislature gave the department the responsibility for licensing check cashing (a/k/a deferred deposit) companies, and title pledge lenders in 1998. The department assumed additional regulatory authority in 1998 when field examiners were assigned to conduct on-site inspections of these entities.

Organization:

The **Commissioner** is the chief executive of the department and is responsible for implementing departmental policies, statutory mandates, and administrative regulations as well as supervising the agency’s day-to-day operations. The **Office of the Commissioner** also includes the **Office of General Counsel**, which handles the agency’s legal affairs.

Ella D. Robinson, who had served as the agency’s Deputy Commissioner for several years, assumed leadership of the department in December 1999 when Governor Paul Patton appointed her as its thirty-third Commissioner. In

addition to the Office of the Commissioner and General Counsel, the Department is organized along functional lines into three divisions: **Financial Institutions**, **Securities**, and **Administrative Services**.

☞ The **Division of Financial Institutions** is organized into three, industry-specific branches: *Banks*, *Credit Unions*, and *Compliance* and is responsible for chartering and/or licensing, examining, and otherwise supervising the operations of state-regulated depository and non-depository financial institutions.

☞ Similarly, the **Division of Securities** is organized into two branches: *Compliance and Enforcement*, which handle the regulation and supervision of the state’s securities industry by registering, licensing, examining, investigating, and otherwise supervising securities offerings, as well as securities firms and professionals operating in Kentucky and/or involving Kentucky investors.

☞ The **Division of Administrative Services** is also organized into two branches: *Administrative Services and Technology*. As their names suggest, these branches are responsible for providing administrative (fiscal, training, operational, etc.) and technical (information systems) support services to the entire staff. The *Administrative Services Branch* is also responsible for layout and design of agency publications and assists in coordinating and supporting the agency’s participation in trade shows, job/career fairs, town meetings, forums, and other media events.

The Department of Financial Institutions is one of 13 agencies within the Cabinet for Public Protection and Regulation and is totally self-funded. Revenues are derived from fees charged for assessments, examinations, call reports, applications, investigations, registrations, and licensing of state-chartered financial institutions and securities offerings and entities.

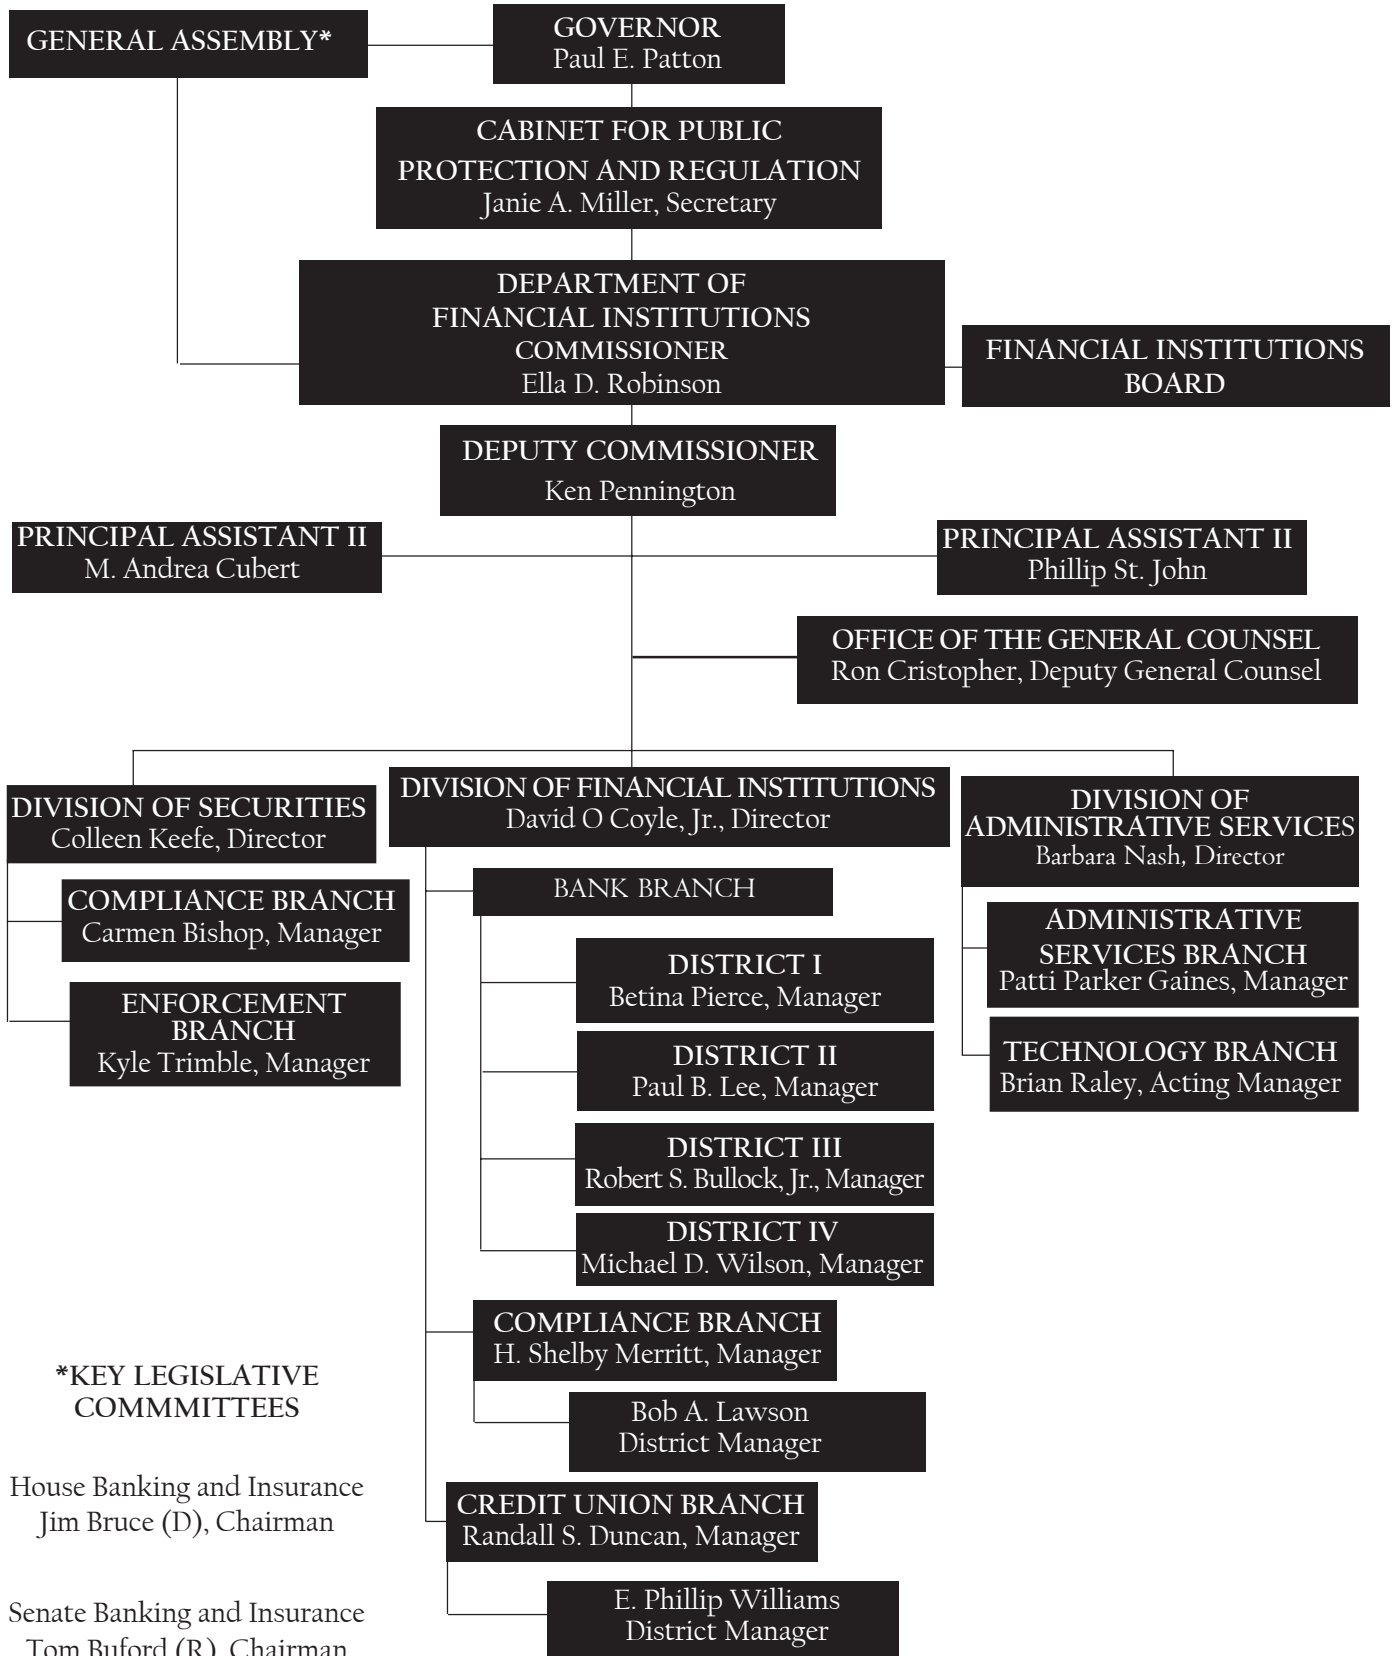

Department of Financial Institutions’ location at 1025 Capital Center Drive.

STRATEGIC PLAN

In keeping with Governor Patton's Empower Kentucky initiatives for making state government programs and operations more efficient and effective, the Department of Financial Institutions continues to make strategic planning an integral part of its organizational culture. Strategic planning is vital to the success of any organization for it greatly enhances the organization's chances of correctly identifying and then reaching its goals.

VALUES:

The operations of the Department of Financial Institutions are guided by the following core values:

- ▶ **Teamwork:** We are committed to achieving organizational goals through open, responsive communication and cooperation.
- ▶ **Professionalism:** We take pride in the quality and timeliness of our services and are committed to excellence, accountability, ovation.

The old Capitol.

- ▶ **Integrity:** We believe in being honest, fair, consistent, and objective.
- ▶ **Respect:** We are sensitive to the viewpoints and efforts of others and strive to be helpful to all.
- ▶ **Progressive:** We identify potential issues that may impact this agency and seize opportunities to formulate appropriate solutions.

VISION:

The department aspires to:

- ☉ Be a proactive, credible and respected regulator of the financial services industries.
- ☉ Be a leader in educating and protecting the investing, depositing, and borrowing public.
- ☉ Foster capital growth and economic development by ensuring a strong financial services environment.
- ☉ Empower competent, knowledgeable, and well-trained employees who are committed to our mission.
- ☉ Achieve a work environment that encourages career opportunities, professional development, equitable compensation, and premier customer service.
- ☉ Proactively keep abreast of emerging trends and issues, and implement strategies as appropriate.

GOALS

The department believes its mission can be accomplished through the collective efforts of a staff empowered to produce tangible results in the following strategic areas:

1. Proactive regulation of the financial services industries in order to ensure safety and soundness and/or compliance.
2. Enhance public protection through consumer awareness and education.
3. Enhance status as a national leader in regulating the financial services industries.
4. Effective and efficient infrastructure that supports and enhances human resources and operations.

LEGISLATION AND REGULATION

The 2002 General Assembly session focused the vast majority of its efforts in trying to address the state's budget situation, and continued this focus in a special session after the regular session concluded. Consequently, the number of significant new laws affecting DFI and its regulated financial entities were less than in previous years.

House Bill 152 codified existing practice by exempting banks, trust companies, and other lending institutions subject to state or federal regulation from licensing as a manufactured housing dealer. These financial institutions have traditionally only engaged in the sale of these homes in those instances when possession is obtained, through foreclosure, as part of a defaulted loan transaction, and the subsequent disposal of the home.

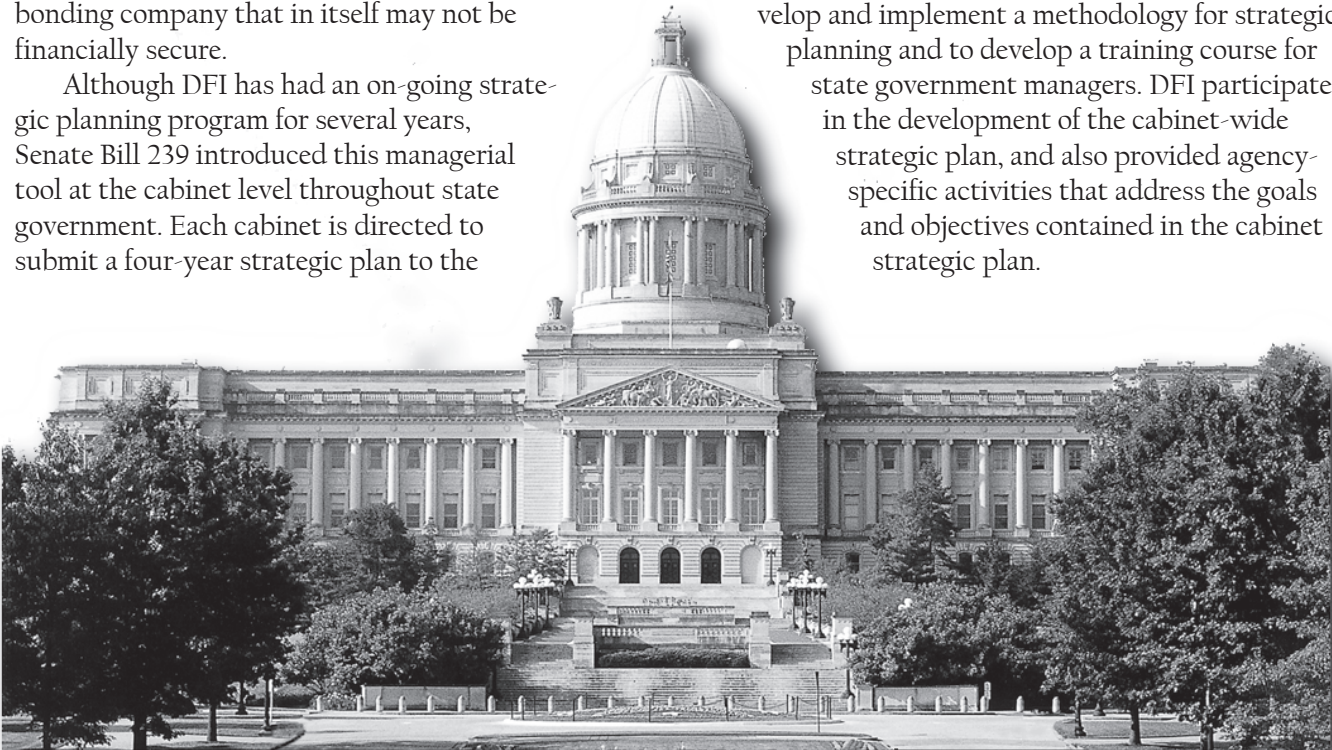

With the passage of House Bill 358, fiduciaries are now authorized to invest in certificates of deposit, in excess of federal deposit insurance limits, as long as the amount in excess of the insurance is fully secured by irrevocable government letters of credit, a pledge of securities that are already permissible investments pursuant to KRS Chapter 386, a surety bond, or a combination of these three categories. A potential problem could arise if excess deposits are secured by a surety bond issued by a bonding company that in itself may not be financially secure.

Although DFI has had an on-going strategic planning program for several years, Senate Bill 239 introduced this managerial tool at the cabinet level throughout state government. Each cabinet is directed to submit a four-year strategic plan to the

The Capitol-view from the House of Representatives.

state budget director, the secretary of the Executive Cabinet, and the Legislative Research Commission with each biennial budget request; define the components of the strategic plan; provide for a September 1 deadline for progress reports on the plan; require the state budget director to designate an entity to develop and implement a methodology for strategic planning and to develop a training course for state government managers. DFI participated in the development of the cabinet-wide strategic plan, and also provided agency-specific activities that address the goals and objectives contained in the cabinet strategic plan.

DIVISION OF ADMINISTRATIVE SERVICES

DIVISION OF ADMINISTRATIVE SERVICES

The Division of Administrative Services is headed by a division director and is comprised of two branches: Administrative Services and Technology. Employees in this division work closely with the Commissioner and her staff to provide administrative and technological (information systems) support to all department staff and to manage the agency's public information and media relation endeavors.

ADMINISTRATIVE SERVICES BRANCH

Employees in the Administrative Services Branch provide administrative support to the department in the following areas:

- Facilities management: Frankfort office and district offices in Eddyville, Bowling Green, Louisville, and Lexington;
- Fiscal management;
- Operations and quality control;
- Records management;
- Agency publications; and
- Staff development: coordinating Employee Training & Continuing Education and Examiner Certification programs.

A primary agency goal is to hire, train, and maintain a highly informed and capable staff. One of the ways the Department seeks to accomplish this goal is through staff development by identifying training needs, developing and delivering agency-specific training, coordinating and/or sharing training and education resources with other state and federal agencies, and assuring equal access to continuing

education and training opportunities for all employees.

Through continued innovation and open communication, the Department is hopeful that its past accomplishments will carry forward into the future and will enable this agency to become second to none in terms of staff development through training, continuing education, and career development opportunities. As the following table illustrates, such staff development was clearly an agency priority during the year 2002.

Training Jan. – Dec. 2002	No. of Schools/Classes	No. of Attendees
New Employee Orientation	3	4
Staff Conference	1	92
GSC-Career Enhancement	2	3
Continuing Legal Education	7	16
Computer Training (GOT)	9	10
Examiner Schools	41	90
Executive Seminars	20	23
Graduate Schools	1	1
KY Career Management Program	25	26
Management (other than KCMP)	19	20
Securities Training	12	23
College Courses	5	5
Total:	145	313

In addition to staff training, the Administrative Services Branch continued to coordinate and support the agency's efforts to inform/educate consumers, legislators, and industry representatives. The Administrative Services Branch was also instrumental in developing and publishing several more informational brochures and for once again distributing copies of its Annual Report to the state's public libraries and to senior citizens' centers across the Commonwealth.

Staff members from throughout the agency continued to enhance the agency's visibility by participating in public education forums, town meetings, and industry association meetings. The Department's presence at career days and job fairs was further increased during 2002 as Administrative Services staff visited high schools and colleges in Kentucky and spoke with students about job opportunities. Administrative Services employees also represented DFI at the annual Governor's Diversity Day, a job fair that draws hundreds of students and teachers from across the state to Frankfort to learn about career opportunities in state government.

One of the department's consumer information displays.

DIVISION OF ADMINISTRATIVE SERVICES

As it has for many years, the Department maintains a toll-free telephone number, and consumers and industry representatives wanting to speak with a member of the agency's staff are encouraged to call 1-800-223-2579 with their questions and concerns. Information for consumers, regulated industries, and the general public is also available on the Department's website at www.dfi.ky.gov. Business hours at our central office located at 1025 Capital Center Drive, Suite 200, Frankfort, KY are from 8:00 a.m. to 4:30 p.m. Eastern time.

TECHNOLOGY BRANCH

The Department of Financial Institutions (DFI) continues to take every appropriate step to further the effective use of Information Technology (IT) to improve the delivery of its services, not only to the financial services industries it regulates, but also to other state and federal government agencies and to the citizens of the Commonwealth.

In light of events of September 11th, 2001 a second look was taken at security measures in place, consequently a new Disaster and Emergency Plan

was designed to assist the agency in providing essential services in the event of a natural or manmade disaster or emergency, as well as a technical failure or disaster.

The Department has been able to focus more intently on efforts necessary to upgrade and enhance the information technology utilized at DFI to support the agency's mission as defined in its Strategic Plan. Specifically, the Department increased efforts during 2002 to hasten the implementation of a totally integrated

Management Information System (MIS), which the agency has been planning for and working toward for several years. The new Star Program is a multi-year project that will encompass new hardware, new programs (software), new office procedures, and ongoing training. It will also utilize e-Government resources for data capture and maintenance where appropriate to track more completely DFI Management Information and to simplify access to DFI documents and information. This will apply to DFI's internal information repositories as well as to information needed by the financial community at large. We have an employee on staff who continues the design and implementation of an integrated data base called the Star System.

Security and privacy issues continue to raise very real concerns across the country, and DFI is no exception. In an attempt to become more proactive in addressing these issues, the Department continued to monitor and upgrade its Internet and Intranet components to provide more secure access to the agency's information repositories.

In addition to helping plan, design, and implement the agency's future IT needs, the Information Technology (IT) Branch provided ongoing technological support throughout the year 2002 to all of DFI's employees and was responsible for the Wide Area and Local Area Networks for the central office and for its four field offices.

DIVISION OF FINANCIAL INSTITUTIONS

The Division of Financial Institutions was created by Executive Order June 12, 1997. The Division is responsible for licensing, chartering and regulating the activities of state-chartered/licensed depository and non-depository financial institutions. The Division's duties are strategically divided among three branches: Bank, Credit Union, and Compliance.

Nintieth Annual Bank and Thrift Report

The primary duties of the Bank Branch include chartering and regulating 170 state-chartered commercial banks, three independent trust companies, and numerous bank trust departments, bank holding companies, and electronic data processors. As of December 31, 2002, the banks held in aggregate in excess of \$28.5 billion in assets.

Banks faced numerous challenges in 2002 as the state and national economy continued to weaken. While no banks failed, the number of problem banks rose slightly due to poor underwriting and loan administration. Successful banks continue to be the institutions with the most effective risk management systems. While the Department's examinations focus concentrated more on perceived high-risk areas such as construction lending, liquidity management, and interest rate risk, other areas such as automatic overdraft programs, corporate governance, and compliance with the Bank Secrecy Act garnered increased attention.

Despite the challenges, 2002 can be characterized as a strong year for Kentucky state banks in terms of financial performance. Through December 31, 2002, they enjoyed a healthy return on assets (ROA) of 1.33%, reflecting a slight increase from Y/E 2001. At 9.43%, the core capital (leverage) ratio remained strong. Total net income for state-chartered banks rose by 4.5% in 2002, while assets were falling by two percent. There were ninety-one written consumer complaints against state chartered banks in 2002 versus eighty-five in 2001.

No de novo banks were established in 2002, while one national bank converted to state charter. The slowdown in de novo charters was related to the economic slowdown and lack of market opportunities.

The average experience of the Bank Branch field staff is ten years with the Department, while the Bank Branch office staff has an average tenure of nineteen years. Two new bank examiners were hired during 2002. All Bank Branch personnel are provided with a comprehensive training program that involves at least one week of training each year. Training includes areas of lending, operations, e-banking, trust, and asset/liability management. Many of the examiners have completed, or are attending, one of the graduate schools of banking or trust.

10-28-02 Commonwealth Bank & Trust Company, Louisville, Kentucky established a Loan Production office at 4350 Brownsboro Road, Louisville, Kentucky

12-10-02 Planters Bank, Inc, Hopkinsville, Christian County, Kentucky established a Loan Production Office at 1500 Madison Street B, Clarksville, Tennessee

CREDIT UNION DIVISION

Sixty-Ninth Annual Credit Union Report

The Credit Union Branch supervises the activities of 37 Kentucky state-chartered credit unions, ranging in size from \$4,354 to \$537,960,631. While the number of credit unions under supervision by this branch continues to decline, total assets under supervision have increased. Kentucky state-chartered credit unions have total assets of \$1,157,171,468 under supervision by the Credit Union Branch.

The Credit Union Branch consists of four employees. The structure of the Division's Credit Union Branch is as follows: Branch Manager, District Manager, and two Certified Examiners. The examiners' experience ranges from more than 14 to 29 years. Examiners are encouraged to further their education in specialized areas according to their personal growth plans and in keeping with the Department and/or Division needs for examiner expertise in specific areas.

The Credit Union Examiners utilize a Risk Focus Examination approach by rating Credit Risk, Interest Rate Risk, Liquidity Risk, Transaction Risk, Compliance Risk, Strategic Risk, and Reputation Risk. In addition, Information System Examinations are conducted. Compliance Risk will be a focus during 2003 examinations to ensure managements compliance with the new Financial Accounting Standard for the treatment of the Allowance for Loan and Lease Losses. In addition, compliance with the Office of Foreign Asset Control (OFAC) regulations will be monitored.

Kentucky state-chartered credit unions experienced another financially healthy year in 2002. Despite falling asset yields, earnings improved. Asset growth, while strong, was slower in 2002 than in 2001. Loan growth continued to lag behind asset growth.

The Department of Financial Institutions approved the following mergers during the year:

Merged

St. Augustine Credit Union
Jockey International of KY Credit Union
Knottsville Credit Union
Transit Credit Union
Texas Gas Employees Credit Union

Merged With

C&O United Credit Union
GTKY Credit Union
Green River Area Federal Credit Union
C&O United Credit Union
Kentucky Telco Federal Credit Union

SIXTH ANNUAL COMPLIANCE BRANCH REPORT

The Compliance Branch licenses and regulates mortgage brokers and companies, check cashers, consumer and industrial loan companies, and sale of checks. As of December 31, 2002, this branch supervised 1,429 licensees.

The number and type of licenses regulated by the Department are displayed below:

License Type	Number Of Licensees December 31, 2001	Number Of Licensees December 31, 2002
Mortgage Companies	81	81
Mortgage Brokers	424	436
Check Cashers	442	470
Consumer Loan Companies	346	344
Industrial Loan Companies	70	67
Sale of Checks	29	31
TOTAL	1,392	1,429

There were 242 Compliance Branch written consumer complaints received by the Department during 2002. The breakdown is as follows:

	Number Of Written Complaints
Mortgage Companies	83
Mortgage Brokers	109
Check Cashers	18
Consumer Loan Companies	32
Industrial Loan Companies	0
Sale of Checks	0
TOTAL	242

During 2002, the number of examinations conducted by the Compliance Branch are as follows:

	Number Of Examinations
Mortgage Companies	23
Mortgage Brokers	200
Check Cashers	448
Consumer Loan Companies	337
Industrial Loan Companies	70
Sale of Checks	1
TOTAL	1,079

In 2002, a total of thirty three thousand five hundred dollars (\$33,500) in fines were assessed against various mortgage companies and mortgage brokers. For the same time period, license revocations were as follows: nine mortgage brokers, two mortgage loan companies, and two check cashers. One mortgage broker license was suspended for two years.

The Compliance Branch is staffed with ten examiners. Three are assigned to consumer loan companies and industrial loan companies, three to check cashers, and four to mortgage companies and mortgage brokers. These examiners collectively have in excess of one hundred years experience and are highly trained in their respective areas. They are located in Bowling Green, Madisonville, Louisville, Lexington, Nicholasville, and Versailles.

Check casher, consumer loan company, and industrial loan company licensees are examined annually as required by statute. Mortgage company and mortgage broker examination frequency are not set by statute, however, licensees are examined every eighteen to twenty-four months. Each examiner has his/her own portfolio of licensees. Every effort is made by the Department to keep an examiner's portfolio in a geographic area close to their residence to keep travel to a minimum. Department field offices located in Eddyville, Bowling Green, Louisville, and Lexington are used by examiners for administrative purposes.

During calendar year 2002, the Compliance Branch examination staff attended several schools and conferences that provided continuing education in their respective fields. The American Association of Residential Mortgage Regulators (AARMR) provides a five-day examiner school annually in Washington, DC. All four of the mortgage examiners attend each year. The topics covered vary from year to year, but most importantly this particular school keeps the mortgage staff current in changes to federal laws and regulations. Every two years, AARMR offers a three-day fraud school in addition to the examiner school and the entire mortgage staff attends. Consumer loan company, industrial loan company and check casher examiners attend the National Association of Consumer Credit Administrators (NACCA) annual five-day examiner school held in various locations throughout the United States. As with the AARMR examiner school, this school provides for continuing education and updates on the changes in federal laws and regulations.

DIVISION OF SECURITIES

Seventeenth Annual Securities Report

The mission of the Division of Securities is to 1) protect Kentucky investors by preventing and remedying, whenever possible, investment fraud and related illegal conduct, 2) educate the investing public on how to make informed investment decisions, and 3) assist companies in their legitimate attempts to raise capital and transact securities business in Kentucky.

To fulfill its mission, the Division of Securities performs the various functions set forth below. Each of these activities are intended to provide protection to the citizens of the Commonwealth by helping to ensure that securities transactions are effected in compliance with the Securities Act and that investors have thorough and accurate information available to them when they are evaluating an investment in a security or contemplating doing business with a securities professional.

- Licensing – Licensing staff assist in the registration of, or determination to deny registration to, broker-dealers, investment advisers, and their employees. Another service provided by Licensing staff is to provide information to the public concerning a broker's disciplinary history.
- Compliance – Examiners in the Compliance Branch perform routine (but often unannounced) examinations of broker-dealers, investment advisers, and their employees in the Commonwealth, in order to determine that they are complying with the securities laws.
- Enforcement – Investigators in the Enforcement Branch investigate complaints filed with the Division alleging securities fraud or other illegal conduct. In coordination with Department Legal staff, the investigators assist in the administrative actions the Department may pursue against alleged violators of the Securities Act. Further, the Division may refer cases to criminal authorities to prosecute the most serious occurrences of securities fraud.
- Corporation Finance – Corporation Finance staff assist in the registration or exemption from registration of entities that issue securities in the Commonwealth. The staff in this area also process notice filings by issuers of federally covered securities such as mutual funds. The Corporation Finance staff also answer questions from the general public about the requirements for offerings of securities in Kentucky.

In addition, the Division distributes informational brochures to Kentuckians through public libraries, county co-operative extension agencies, and regularly speaks to high school students and community groups about saving and investing.

REPORT OF THE DIVISION OF SECURITIES YEAR-END 2002

BROKER - DEALERS, AGENTS, ADVISORS
AND REPRESENTATIVES
